

This seed is treated with

# Marauder<sup>®</sup>

## Soybean Inoculant System

Marauder Soybean Inoculant System contains a high concentrate of triple stacked Rhizobia for optimum N-fixaction plus a live biological performance enhancer.

**CAUTION:** Marauder<sup>®</sup> may be used either on untreated seed, or seed that has been treated with a fungicide or insecticide. Wear appropriate protective gear, avoid skin contact or breathing of dust, and follow the caution statements of the other treatments if the seed has been pre-treated. Individuals allergic to molds and or fungi should take precautions to avoid contact with the eyes or skin. To minimize risk of allergic exposure, individuals should wear standard protective clothing and equipment including gloves, safety glasses, and an NIOSH approved respirator. In case of allergic contact with eyes or skin, immediately flush the exposed area with water. Seek medical attention if irritation develops or persists.
