Net Volume: 250 oz.

This package treats: 1,000 x 140k units soybean seed

082013

America's Best Inoculant®

plus 30
extender

For use with America's Best Liquid Inoculant or America's Best Concentrate Liquid Inoculant.

PURPOSE:

Use with America's Best Liquid Soybean Inoculant products for extended planting windows and increased compatibility with approved seed treatments.

DIRECTIONS FOR CUSTOM APPLICATION:

Measure appropriate amount of ABI Extender and mix together with inoculant in the applicator mix tank or other suitable container. Continuous agitation is desirable, especially if approved seed treatments are included in the mix tank. Many pesticides are injurious to inoculant rhizobia, so carefully observe tank mix time restrictions.

America's Best Inoculant® is a Registered Trademark of Advanced Biological Marketing™.

APPLICATION RATE ON SEED:

0.25 fl. oz. Extender per 140k unit of soybean seed treated, plus liquid inoculant per instructions.

ABI Product	140,000 seeds
ABI Liquid Inoculant	2.1 oz
Extender	0.25 oz
TOTAL	2.35 oz

ABI Product	140,000 seeds
MegaPack™ Low Volume Inoculant	0.6 oz
Extender	0.25 oz
TOTAL	0.85 oz

PESTICIDE COMPATIBILITY & PLANTING WINDOW:

Some seed treatments are harmful to inoculants and either prohibit the co-application with inoculants, or significantly reduce the planting window allowed. For current recommendations, please refer to www.abm1st.com or contact ABM™ at (877) 617-2461.

QUANTITY SEED TREATED:

One 250 oz. jug treats 1,000 x 140k units of seed. This is the same quantity treated by the 2.65 gallon (10L) jug of America's Best Inoculant®.

STORAGE INSTRUCTIONS:

- STORE in a cool place.
- DO NOT allow to FREEZE

SEED STORAGE INSTRUCTIONS:

Treated seed should be stored in a cool place out of direct sunlight. Observe planting window recommendations. If planting window is exceeded, reapplication of inoculant is necessary.
