Wash hands thoroughly after handling. Do not eat, drink or smoke when using this product.

Get medical advice if you feel unwell. Dispose of contents/container to hazardous or special waste collection point, in accordance with local, regional, national and international regulation.

CONTAINS NON-PLANT FOOD INGREDIENTS

Soil Amending Guaranteed Analysis

Active Ingredient

65.0%.....Microbial Content

Bradyrhizobium japonicum 6.7×10^9 cfu/ml

Bradyrhizobium elkanii 3.3×10^9 cfu/ml

35.0%.....Total Other (Inert) Ingredients

DIRECTIONS FOR USE

This product is intended for nitrogen fixation and to improve nutrient availability. ABI 120 is an all liquid system designed for use in a liquid tank mix in commercial seed treatment systems. For good seed coverage, Agrauxine Corp. generally recommends that the total liquid slurry be a minimum of 2.5 fl. oz. per 140k unit of soybean seed – (ABI 120, non-chlorinated water and approved liquid seed treatments). Experienced seed treaters may choose to decrease the total volume applied.

1. Prior to adding ABI 120 to the tank, shake well both ABI 120 components (liquid rhizobia & extender).

2. Both ABI 120 components (liquid rhizobia & extender) are to be used together.

3. Gradually pour ABI 120 components into **non-chlorinated water** or approved liquid seed treatments.

4. When both components are combined (liquid rhizobia & extender) the mixture is ready to apply. *See more detailed directions and Technical Information on enclosed sheet.*

Caution: ABI 120 may be used on either untreated seed or seed that has been treated with a fungicide or insecticide. For seed treated with a fungicide or insecticide, wear appropriate PPE to avoid direct skin contact and follow the caution statements of the other treatments. In case of direct contact with skin or eyes, immediately flush the exposed area with water. Seek medical attention if irritation develops or persists.

LIMITED WARRANTY:

Agrauxine Corp. guarantees the culture in this product will inoculate the quantity and kind of seed specified on this package when:

- (1) Product is used before the expiration date;
 - (2) Product is stored properly as prescribed by the label;
 - (3) Product is used under normal farming practices with favorable soil and weather conditions;
 - (4) Product is used in accordance with directions for use noted on this package and other technical recommendations referenced on this label. All field performance complaints must be brought to the attention of Agrauxine Corp. within seventy (70) days of planting.
- AGRAUXINE CORP. MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF FITNESS, WARRANTY OF MERCHANTABILITY, OR WARRANTY OF A PARTICULAR PURPOSE, OR ANY OTHER EXPRESS OR IMPLIED WARRANTY. COMPANY'S LIABILITY IS HEREBY EXPRESSLY LIMITED TO THE PURCHASE PRICE OF THIS PACKAGE ONLY. IN NO EVENT SHALL AGRAUXINE CORP. OR ANY SELLER OF THIS PRODUCT BE LIABLE FOR CONSEQUENTIAL, SPECIAL OR INDIRECT DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT.
