➔ Romeo program is cheaper by **80.6 \$/a**, grower level

5 replicates
Variety : Chenin Blanc
2 weeks spray interval

- High disease pressure (100% inc., 89.2% sev.)
- ROMEO program as efficient as the conventional program
- ROMEO can substitute chemical applications

A/ UTC

B/ Grower Standard

1st. Systemic Resistance Inducer based on nonliving microbial

Low dose rate

Multi-targets: effective against multiple foliar fungal diseases

Helps in **resistance management** and **increase overall efficacy**

Easy to integrate/tank mix in plant protection program

No Residu

4h REI / 0 PHI

Cost-effective product for growers

Can be used in **organic farming**

Long shelf life
No specific storage condition

The division dedicated to plant protection, stimulation
and nutrition

BUILT on
TRUST

A large, stylized graphic in the center of the slide. The word "BUILT" is in a bold, white, sans-serif font. To its right, the word "on" is in a smaller, white, sans-serif font. Below "BUILT on", the word "TRUST" is written in a very large, bold, white, sans-serif font. The entire graphic is set against a white background that has a slight drop shadow, making it stand out from the green background. There are also two white curved lines, one above "BUILT" and one below "TRUST", that frame the central text.
